## RATES SECURED

### One Fare Plus 25 Cents for Round Trip Will Be Given During State Fair.

Arrangements for the big Kentucky State Fair to be held at Lexington September 18-23 go on from day to day, and each week develops some new feature which will add to the success of the big exhibition. Last week the Board of Control engaged the Heck Carnival Company of Cincinnati. The official title of the company is the Will S. Heck World's Fair Pike Shows, and this title signifies what may be expected. Many of the shows were conducted by Mr. Heck on the Pike during the big St. Louis World's Fair and will be reproduced here just as they were given there. All of them are clean and moral in every particular. They include an excellent animal show, a Japanese theater, theaters with moving pictures, etc., a dog and pony show, a Persian theater and many other similar attractions.

The effort which the management of the fair has made to obtain the cheapest possible railroad rates has been rewarded. Secretary Bain has received a letter from Joseph Richardson, of Atlanta, Ga., secretary of the Southeastern Passenger Association, stating that the railroads will make a rate of one fare plus 25 cents for the round trip from all points in the State to Lexington during fair week. This rate is virtually a one fare rate and is much more reasonable than the railroads are in the habit of giving for similar entertainments. There will beyond doubt be a remarkably large attendance during the week of the fair, and it will come from every section of Kentucky.

## The Press and Social Conditions.

The evidence of the badness of social conditions and the inadequacy of laws is the "countless number of individuals" who go wrong. The American press, considered in its aggregate, gives in these days more attention than is given by the press of any other land, to intelligent, careful analysis of bad social conditions and to the effect of evil statutes. The condemnation of these is as distinct and as earnest as of evil-working individuals. Nor is the press wanting in brave and cordial approbation of the conditions and the men that promote righteousness and good works in public and private station.

This is not saying that all writers for the press are wise or sincere or justly discriminating or correct in their opinions. The evidence that they are not is their differences in judgment, recommendation and denunciation. But one thing is apparent—never has there been a more substantial unity of interest and of influence in support of the primary requisites of honesty and fidelity in public life, never a more general agreement in condemnation of wickedness and unfaithfulness, never less slavery to party in the domain of patriotism, never more respect for humanity and justice and the practice of virtue in the citizen whether in public or private station.—Boston Herald.

## Sandy Was Right.

When a Scotsman answers a question he settles the matter in dispute once for all. On a certain occasion the question was asked: "Why was Mary Queen of Scots born at Linlithgow?" Sandy Kerr promptly answered: "Because her mother was staying there," and there actually seemed to be nothing more to be said on the subject.

## "A Gooder Man."

A presiding elder tells the following true story:

For several days he had been sick, and was lying on the couch, resting his aching head, when there was a gentle tap at the door, followed by the entrance of his little daughter of five years, who came forward, saying:

"Good morning, sir! I am a visiting deaconess. Are you sick?"

"Yes," he replied, "I am quite sick."

Putting her little hand to his aching brow, she exclaimed, "Poor man! I see you have a fever. Shall I heat an iron and put it to your feet?"

Heating her tiny flatiron on a coal stove, she wrapped it in a towel and put it to her papa's feet. Then she continued:

"We deaconesses always read the Bible to sick people. Shall I read to you?"

"Yes."

She began to repeat all the Golden Texts she had learned, and then asked, "Now, shall I pray with you?"

This question surprised the presiding elder, who was not accustomed to be prayed with by his little daughter, but he answered, "Yes; I should like to have you pray with me."

Falling on her knees, she clasped her hands and prayed:

"O Lord, help this poor sick man that he may get better soon, and may be a gooder man than he was before."

The child fully understood the work of a visiting deaconess, who first sees how she can relieve the physical needs of the sick one, and then prays with and for him that it may be well with his spiritual nature.—Bethany Visitor.

## For Regulation of Insurance—Legislation by Congress Providing Supervision.

Ralph W. Breckinridge, of Omaha, Neb., Chairman of the Committee on Insurance of the American Bar Association, has completed the report of that committee which is to be presented to the annual convention at Narragansett pier, which will be held August 23 to 25.

The report makes five specific recommendations as follows:

First—Legislation by Congress providing for the supervision of insurance.

Second—The repeal of all valued policy laws.

Third—A uniform fire policy, the terms of which shall be specifically defined.

Fourth—The repeal of all retaliatory laws.

Fifth—Stricter incorporation laws in the several States as they affect the creation of insurance companies; and a Federal statute prohibiting the use of the mails to all persons, associations or corporations transacting the business of insurance in disregard of State or Federal regulations.

President Roosevelt is quoted as having said to the committee that he is very much in favor of Federal supervision of insurance.

The committee would require reports to a governmental department showing the amount of money collected, for what purposes used, showing honest holders and the protection of policy.

## Bo Liked It.

"There was one thing about your new musical comedy," said the critic "that I thoroughly enjoyed."

"Ah," replied the smiling author, handing out a cigar. "I'm glad to hear it."

"Yes. The night I was there the prima donna struck, so they had to omit the last act."—Chicago Record-Herald.

## Increasing the Life of Telephone Poles.

During the past year the Forest Service, in cooperation with the American Telephone and Telegraph Company and the Postal Telegraph Cable Company, has been making an investigation to find the best methods of seasoning telephone poles and of treating them with preservatives.

Fifty green poles were furnished every month to each of the five experimental stations. Each pole was exposed to the open air, and was weighed every month until it ceased to lose weight. The rate at which weight was lost showed the rate of seasoning in different months.

After one year of seasoning, preservative treatment was applied to the poles, beginning last spring. Several different preservatives and three methods of applying the preservatives were experimented with. Most of the poles at two of the stations—Wilmington and Pisgah, N. C.—were treated by applying the preservative with a brush. In a few cases a cap or plate was fitted to the but of the pole and creosote forced in by a pump, but with unsatisfactory results. Both chestnut and juniper poles were treated by these methods.

To test the efficacy of the treatment as a preventative against decay these poles, carefully labeled and numbered for identification, have been set in an experimental section of the American Telephone and Telegraph Company, between Savannah and Meldrim, Ga. Each treated pole is set between a green and a seasoned pole, so that the absolute and relative values of the different preservatives will be fully tested.

The third method of applying the preservative is that from which the best results are expected. This method was applied to chestnut poles only. At Dover, N. J., in addition to the external applications, a number of seasoned poles were treated in an open tank constructed to permit of 30 foot poles inclined at an angle of 20 degrees. In this tank the poles are boiled in creosote for several hours. They are then either shifted to a tank of similar construction containing cold creosote, in which they stand for several hours, or are left in the hot oil to cool down gradually. This treatment covers the pole with creosote to a distance of from 8 to 10 feet from the butt.

Up to this time a penetration of one inch and an absorption per pole of 35 to 40 pounds of creosote have been obtained. Changes in the method of operation are almost daily increasing the depth of penetration and amount of absorption. This is the first apparatus in the United States for impregnating the butts of telephone and telegraph poles, and the success which is being attained with it indicates the practicability of its widespread adoption in commercial practice.

Since the life of such poles is determined by the decay at the ground line, only the section from the bottom of the pole to about two feet above the ground line needs to be treated. Creosote is expensive, and if the whole pole must be treated the added years of service may not compensate for the outlay.—It may be cheaper to use two untreated rather than one treated pole. But if an effective method of treating not more than 8 or 10 feet of the pole can be found, there is every reason to expect that treatment will prove profitable to the users of poles as well as an economy of forest material.

"The eagle that soars in the upper air does not worry itself as to how it is to cross rivers."

## Vote for the Secret Ballot.

In response to the protests of the people against the systematic violation of the election laws, the Legislature of Kentucky proposes to abolish the secret ballot altogether and return to the old viva voce system.

It is a confession that the great State of Kentucky cannot enforce its own laws when those laws thwart the decrees of the party machine.

But if the State is not able to protect the secret ballot it will be equally feeble in the face of organized crime against the open ballot.

The secret ballot secures one thing with reasonable certainty: It protects the voter from intimidation.

That is not possible with the open ballot. The secret ballot was adopted in order to give every man the right freely to express his choice at the polls, regardless of the views of his neighbors or the demands of his employers.

It does so protect him, and that protection is not possible with the old system. Again the secret ballot makes difficult if not impossible, the purchase of votes.

Under the old system, under any system with the open ballot, a voter may sell his vote and the buyer has absolute assurance that the vote has been cast in accordance with the agreement before he pays his money.

With the secret ballot the seller cannot give the buyer any evidence that he has delivered the goods. Between buyer and seller there can be no confidence in the good faith.

of either party, so the purchase of votes has been reduced to a minimum.

Other crimes have arisen. Conspiracies have been formed for the corruption of the ballot, and in communities where there is a contempt for law these conspiracies succeed, but they can be as easily successful with the open ballot. It is as easy to pad the lists as to stuff the boxes. It is as easy to buy the clerk who writes the names as it is to buy the clerk who checks the list. In none of these details of crime is the open ballot safer than the secret ballot, whereas in three particulars, the secret ballot gives us the only possible assurance of safety:

First—The secret ballot protects the voter from any form of intimidation.

Second—The secret ballot makes the purchase of votes difficult and dangerous.

Third—The open ballot facilitates the purchase of votes.

The constitutional amendment substituting the open voting for the secret ballot must be voted on in November.—Louisville Post.

## The New Chatechism.

What is the chief lawbreaker of the land?

The barroom.

Where are the schemes hatched which promote civic corruption? In the barroom.

Where does the midnight assassin go to prepare for his murderous work?

To the barroom.

Where do the police go in search of the skulking thief or murderer? To the barroom.

What lays its hands upon political parties and dictates who shall be nominated and elected? The barroom.

What impoverishes the industrious workman and fills him with the spirit of discontent? The barroom.

What takes the bread from the mouths of starving children? The barroom.

What clothes with rags women reared in refinement and affluence? The barroom.

What despoils young manhood and sends it reeling and staggering down the street? The barroom.

What peoples our almshouses and insane asylums with pitiable objects? The barroom.

What crowds our prisons? The barroom.

What destroys the respectability and influence of men and sends them reeling to the drunkard's grave and a drunkard's hell? The barroom.

What destroys more homes and causes more family trouble than anything else? The barroom.

What is the greatest enemy of the church, the nation and the home? The barroom.

What is the greatest hindrance to every reform? The barroom.

Can both the church and the barroom prosper in the same territory? No.

Can a man, knowing the awful work of the barroom, be a Christian and sign barroom petitions, rent property for barroom purposes, or vote for those committed to and in favor of the liquor traffic?

This question we leave for each reader to answer for himself. In the light of experience and constant failure along other lines, does not electoral action present the common-sense method of destroying the barroom?—S. S. Hardin in Kane County Leader.

## Fell Dead.

A man fell dead in Chicago the other day from heart trouble, and thousands die every day in the same way. But the cause of nine out of ten such cases of heart trouble is indigestion. The cure is Dr. Caldwell's (laxative) Syrup Pepsin. The swollen, inflamed, and engorged stomach, pressing right up against the heart and preventing it from working; your heart flutters, palpitates, pains and you are short of breath; some lose it forever. Just try these symptoms, a few doses of Dr. Caldwell's Syrup Pepsin, and see how quickly it will cure you. Sold by W. S. Lloyd at 50c and \$1.00. Money back if it fails. 3-51.

The United States Geological Survey has just issued a bulletin showing the approximate values of the natural gas produced and sold in the United States. The figures for Kentucky, including a small quantity produced in Tennessee, are \$322,404, for Indiana, \$4,342,409; for Ohio, \$5,315,564; for Pennsylvania (the banner State) \$18,139,914.

## Trustees and Patrons Should Take Notice—Text Books to be Used.

Since the beginning of the present school year there seems to have arisen some confusion regarding the books to be used in the schools of this county.

In July 1901 the County Board of Examiners adopted for a period of five years a series of text books on the subjects embraced in the common school course. A contract to furnish the list adopted was entered into by the American Book Co., and as a guarantee of their fulfillment of their contracts in the various counties that had adopted their books, they executed a bond before the State Board of Education in the sum of \$10,000, which bond was required by law, and it was further provided that, upon failure or refusal of any book company furnishing or offering to furnish such books, to comply with the legal requirements, the text books of such publishers should be removed from the common schools of any and all counties in the State by the County School Board, and that new text books should be adopted.

The Legislature in February 1904 passed an act prescribing a different method of adoption and providing for a uniform series in all the counties, which took effect at once in all the counties, that were free from contracts, and becomes operative in others as their pre-existing contracts expire. The present law provides that patrons may at any time in one year after the expiration of old contract exchange the old books that they possess for new ones of like subject and grade upon payment of one half the price of the new books.

Some time during the earlier part of this year in a suit by Mason County School Board vs. the American Book Company the courts decided that, for failure to comply with the terms imposed by law, the bond of the company forfeited, and as the company refuses to renew the bond it is the duty of the County School Boards of all counties under contract with the American Book Company to remove the books and substitute the State uniform series, and if they fail to do their duty in this matter now and wait until next year, the American Book Company will no doubt refuse to receive the old books in exchange, upon the ground that the first or exchange year of the new adoption has then expired.

Hence it would seem that, in justice to the large number of patrons who are entitled to whatever benefit that may be derived from an exchange of their old books, the County Superintendent should have the School Board remove the old books, and direct the teachers in the county to use the new adoption.

## 31,000 Illegal Voters in Philadelphia—May Be Many More.

In Philadelphia all city employees within the jurisdiction of Mayor Weaver are now under orders to at once make an examination of the voting lists in their divisions and report all names that are illegally on the lists as qualified voters. The police in their first canvass reported more than 31,000 names illegally on the lists. This canvass was unsatisfactory to the Mayor and he ordered that another inspection be made. As a result of the first canvass about a score of policemen have been ordered up for trial before the police board of inquiry for alleged failure to report all fraudulent names on the first canvass.

### ANNOUNCEMENTS.

We are authorized to announce JAMES L. ROBERTSON as a candidate for Mayor of Montgomery County, subject to the action of the Republican party.

### SHOULD THE BRIBE GIVERS ESCAPE PUBLIC CONDEMNATION.

In a recent editorial The Herald expressed an opinion that the tax dodger who bribes is as guilty as the official who yields to the bribe. The bribe-taker is always a weak and unworthy creature who is fairly entitled to all the condemnation and contempt which come his way when he is found out. Trusted with a public place, he proves too weak and selfish and criminal to protect his trust. It is not necessary for our present purpose to say more.

But we think something should be said to arouse public sentiment to the distinctly criminal and aggressively wicked quality of the bribe-giver's offense.

We do not undertake to say that any bribe was either given or taken in the back tax suits which have lately been under public discussion. We prefer to withhold judgment until both sides have been fully heard. But we say now that if any bribes have been given the men who gave the bribes are among the criminals in the transactions.

It is worse than silly to say that a rascal who bribes a public official is an innocent and virtuous business man who has been done out of honest money by a wicked, grafting politician. There is nothing innocent or virtuous about a bribe-giver. He is the thief who is pilfering the public treasury. The bribe is the meat he throws to the greedy watchdog to quiet his

growls, while the giver thereof commits the theft.

To withhold taxes due is in ethics as much stealing from the public treasury as it is to take out of the treasury taxes already paid in. To corrupt a public official by bribes debauches the official, degrades the briber and wrongs the State. It is a three-fold crime. The man guilty of it is traitorous to free institutions, for grafting and jobbery threaten the permanency of such institutions.

Public thought is aroused to the evil and danger of grafting and we hear much just condemnation of corrupt politicians. But the business interests which do the corrupting work seem able to keep on the concealing cloak of pretended respectability. It is, nevertheless, a fact that politicians become corrupt at the points where political action touches business interests. This is because business men are prone to think it smart and safe, if not legitimate, for them to bribe politicians and public officials whenever their business interests may be benefited at the expense of the public welfare.

To remedy this state of affairs, public opinion must pull the cloak of respectability from the shoulders of the bribe-givers. Bribe-giving is corrupt, criminal, disgraceful and dishonorable. When a bribe-giver is found out he should be put in the stocks of public scorn alongside of the miserable creature whom he has corrupted.

The intimation which has been given by the newspapers that our State administration will protect from criminal prosecution all who may come forward with evidence that they have bribed Auditor's agents in back tax suits may be thought necessary to secure needed evidence; but it would be a greater public service to bring bribe-givers to the bar of justice and thus teach them that to give a bribe is as hateful in the eyes of the law as to receive one.—Lexington Herald, July 29.

### THE EYES OF THE GOOD.

Good people see good all around them; the evil minded find evil everywhere. "As we grow purer within the world grows more beautiful without." To the good this world is not going to the bad, they have confidence in all that is humane and strive to conform man to all that he is to what is good, pure and noble.

### WHAT'S THE MATTER WITH ROOSEVELT?

The President, oh yes, he was going to call a special session of Congress last spring but his political friends were not stuck on a date so he named September, later October and now Nov. 11, after the election day for fear some one would get hurt. Be brave Mr. President.

The office of Justice of the Peace is a very important one, requiring capable, sober, discreet, honest men to administer its duties, men who have been successful in their private business. The popular opinion that any kind of a man can serve as Justice of Peace is erroneous. Every county should have the best.

The Lexington Herald is after the Leader right warmly [and the bone of contention is the negro as a delegate to the National Convention. What will the Republican party do with the negro now since he has begun to talk back and make demands is a very serious question.

Rufus Bryant, Lexington, while drunk, beat his wife, and Judge Riley gave him 200 days for the offense. My! wouldn't a whipping post have been the thing for him?

"Game is called—all bets are off." Grand jury will be in session in September.

### Serious Injury.

On Friday at the Ed Williams business house his son, Hanly, was standing on an extension ladder repairing the roof. The coupling slipped throwing him to the pavement, fully 30 ft. His fall was somewhat broken by telephone wires. He fell on his hands. The left wrist above and below the joint were badly broken. He received a cut and bruises around one eye and was severely shaken up.

### Gun Club.

The Mt. Sterling Gun Club will entertain the Lexington Gun Club on Friday afternoon. The shoot begins at 1:30 sharp. Ladies are especially invited.

Of the series of shoots, five in number between these clubs, three have been shot off. Mt. Sterling winning two. We are expecting our boys to do the elegant by reserving their best, making a hit on the home stretch when excitement is at its height our boys will wear the laurel.

### Persisted in Spitting.

Henry Bates, of Jackson, Ky., persisted in spitting on pavement in Lexington after being asked not to do so. He was arrested and tried also for drunkenness.

As Administrator of Mrs. Nannie J. Moore I will on Saturday the 19th inst. at her late residence, corner of Clay and Elm Streets sell her household and kitchen furniture. Sale will begin at 2 o'clock p.m. C. F. Thomas, Adm. 2t.

### DINE AT THE FRIAR'S FARM

New Year's Day at the English Home of Rest for Finely Bred Horses.

An equine banquet has proved not the least interesting of the festivities of the season. The scene was Friar's Place Farm at Acton, relates the Pall Mall Gazette, where the home of rest for horses carries on its beneficent work of providing a hospital for convalescents, as well as an asylum for the aged, and the occasion was the annual New Year's day dinner to the inmates. Like other festive meals, this one differed from ordinary fare. Ridiculously simple from the human standpoint, it was a succession of dainties for the equine palate. Each inmate of the 60 or so loose boxes was presented with a New Year's box, filled with an assortment of biscuits, apples, carrots and bits of sugar and bread, and they munched these tasty morsels to the accompaniment of many caresses and kind words from the grooms who were hidden to the feast merely as onlookers. There was no doubting that the horses knew that their environment was en fête. Long before one of them seized a rope in his teeth, and the dinner bell ringing, two rows of heads and necks were nodding and swaying out of the open upper half of the loose box doors, in intelligent anticipation of the favors to come, keeping their eyes on the tempting tidbits as yet beyond their reach, and dilating their nostrils in sniffing satisfaction. Like patients in a hospital ward, each was identified by a framed card, giving his name, blood and his treatment, and brief biographies were furnished by the manager of the home, as each horse was visited in turn.

The all-pervading kindness displayed on this day by attendants and visitors alike was but part of the system of thoughtful benevolence that obtains all the year round at Friar's Place Farm. The work of the institution is better appreciated the more widely it is known. Each of the three main objects must enlist the sympathy of all lovers of man's noblest friend among the animal creation. First of all, it enables the poorer classes, on moderate terms to procure rest and good treatment for animals that are failing, not from age, but from continuous work, sickness, or accidental causes, and are likely to be benefited by a few weeks' rest and care. A little timely relief of this kind enables many failing horses to do further work with comfort for years, thus saving their owners unnecessary outlay in purchasing others. Secondly, it provides animals for poor persons for temporary use while their own are resting in the home, a small amount being charged for such loans, and a strict guarantee of good treatment being exacted. In the third place, the home provides a suitable asylum for "old favorites" that would suffer by being turned out only to grass, but whose owners, instead of destroying or selling them for future labor, desire to place them under good treatment for the best of their days, paying a remunerative charge for such accommodation. Among the latter class the visitors were introduced to an old chestnut charger whose master, Col. Finlay, of the Scots guards, had sent him to join the ranks of the other pensioners for life at the Home of Rest for Horses.

### SOCIAL EVENTS.

On Thursday evening Allison and Lindsay Cockrell, sons of L. B. Cockrell and wife, gave a very delightful party at their home near Wade Mill in Clark county. About 100 invitations had been issued, principally to friends in Clark and Montgomery.

On Friday evening, August 11, Mr. J. G. Trimble, Jr., entertained in honor of his birthday. A beautiful and elaborate dinner was served. The decorations were attractive. The guests were Misses Mary Wood, of Florida, and Louise Wood, of Washington, D. C.; Nora Peters, of Owingsville; Anna Johnson, of this city, and Messrs. Richard Apperson, of New York; Reid Patterson, of Owingsville, and R. H. White, of this city.

 "I shall have new ties of kinship  
 with all ones to them scarce known,  
 and her husband's good benediction  
 a home-stay of her own.  
 "Her loving eyes were filling fast  
 with hot tears she could not hide,  
 as her loving heart was crying,  
 that she could not be a bride,  
 could not leave the dear old home  
 in which she first saw the light—  
 "her eyes could be as clear  
 as other home as bright."

She turned, there on the table  
 lay the pictured face of him  
 who had wooed her from the home nest—  
 and with eyes still wet and dim,  
 as she whispered as she kissed it,  
 "I can leave details all for them,  
 wherever thou art, beloved,  
 I'll be with thee for hours for me."

### AY TO TREAT RAY FEVER

Stomach Dosing. Just Breathe  
 Hyomei—Stops Sneezing and  
 Smarting.

W. S. Lloyd is recommending to  
 customers as a cure for hay  
 fever, Hyomei.

It is claimed for this remedy that  
 stops the spasmodic paroxysms,  
 sneezing, the smarting and run-  
 ning of the eyes and nose, and  
 their acute symptoms of this dis-  
 ease.

Many persons have been cured of  
 hay fever by Hyomei, and the dis-  
 coverer of the remedy professes to  
 be able to prevent both the oc-  
 currence of the annual attack and  
 to stop the disease, even in the  
 most chronic forms. W. S. Lloyd  
 offers to refund the money if Hy-  
 mei does not do all that is claimed  
 for it, is the strongest proof that  
 can be given as to the confidence he  
 has in Hyomei's power to cure hay  
 fever. The complete outfit costs  
 but \$1.00, and extra bottles for 50  
 cents. (Aug 16 30)

### Caught Part of It.

Johnson—Were you at the con-  
 cert, Joe?  
 Jones—Yes, part of the time.  
 Johnson—Did you hear me sing  
 "The Wolf?"  
 Jones—"The Wolf?" How did it  
 go?  
 Johnson (singing)—"Whist! the  
 wolf, in night, howl, bays the  
 moon with hideous howl."  
 Jones (expressively)—Oh, yes!  
 I remember the hideous howl.

### BANK MONEY ORDERS.

We take this opportunity of calling  
 your attention to BANK MONEY OR-  
 DERS, a new feature in banking which  
 we are introducing. You will find them  
 convenient for sending small amounts of  
 money to other cities in payment of  
 merchandise, subscriptions to papers, etc.  
 They are absolutely safe and are payable  
 everywhere. Their payment is guaran-  
 teed by the American Surety Company,  
 of New York, which has a capital of \$4,  
 000,000. We issue a receipt for each or-  
 der purchased. You do not have to write  
 out an application for them, as you do a  
 Postal Money Order, and you are thus  
 saved delay and inconvenience. The cost  
 is also less than the money orders, being  
 as follows:

- Amounts \$5 and under, 2 cents.
- Amounts \$5 to \$10, 3 cents.
- Amounts \$10 to \$25, 10 cts.
- Amounts \$25 to \$50, 15 cts.
- Amounts \$50 to \$75, 20 cts.
- Amounts \$75 to \$100, 25 cts.

## BEWARE OF SUMMER GERMS

Will Cause Sickness Unless The Stomach is Strengthened  
 With Mi-o-na.

If the stomach is weak so that  
 food does not readily digest in it,  
 the food will become a sour, slimy,  
 fermenting mass in the digestive  
 organs, the ideal condition for  
 germs to cause bowel trouble, diar-  
 rhoea, and other summer illness.

The well known Mi-o-na will  
 make the whole digestive system  
 so healthy, clean and sweet that  
 food cannot ferment, and any dis-  
 ease germs which may enter the  
 stomach will be destroyed.

Just one small tablet out of a 50  
 cent box of Mi-o-na before eating,  
 and you will have no headaches,  
 back-ache, poor appetite, distress  
 after eating, heart-burn, furred  
 tongue, sleeplessness, or general  
 debility. It will tone up the di-  
 gestive system and give perfect  
 health and strength.

Take Mi-o-na now, and W. S.  
 Lloyd will guarantee to refund  
 the money if it does not cure.  
 The risk is all his. Aug. 16-30.

### The Reason.

"Now why is it?" asked his  
 father, "that we celebrate your  
 birthday, Willie?"  
 "Because I wasn't twins, I  
 guess," replied the penetrating  
 youngster—Puck.

### The Farmer.

It does one's heart good to see a  
 merry, round faced farmer. So  
 independent, and yet so free from  
 vanities and pride. So rich, and  
 yet so industrious; so patient and  
 persevering in his calling, and yet  
 so kind and obliging. There are a  
 thousand noble traits about him  
 which light up his character. He  
 is generally hospitable; eat with  
 him and drink with him, and he  
 won't set a mark on you, and sweat  
 it out of you with a double com-  
 pound interest at another time.  
 You are welcome. He will do you  
 a kindness without expecting a  
 return for any of compensation; it  
 is not so with everybody. He is gen-  
 erally more honest and sincere—  
 less disposed to deal in a low and  
 underhand cunning, than some  
 other people who might be men-  
 tioned. He gives society its best  
 support—he is the edifice of gov-  
 ernment and the lord of nature.  
 Look at him in homespun gray  
 and black, gentlemen; laugh if you  
 will, but believe me, he can laugh  
 back at the pleases.

### Peace Envoys Arrive.

The peace envoys arrived at  
 Portsmouth, Tuesday, Aug. 8, and  
 were received with salutes from the  
 navy yard and welcomed by Rear  
 Admiral Mead. The procession  
 then formed, led by Admiral Mead  
 and M. Witte, marines drawn up on  
 either side. Thus the envoys  
 marched to the naval stores build-  
 ing, where they were assigned to  
 their respective rooms with their  
 suites.

The program as officially map-  
 ped out by Third Assistant Sec-  
 retary of State Peirce, Rear Admiral  
 Mead, Commandant of the Port-  
 mouth Navy Yard, and Gov. John  
 McLane for the official reception  
 of the peace envoys was carried out  
 without modification or hindrance.

### Congressman Kehoe Promises Construction from Sharp- burg to Carlisle.

Congressman Kehoe, president  
 of the Paris and Mayeville Traction  
 Company, says that as soon as  
 the line is completed from Paris to  
 Mayeville, they intend to go to  
 work for a road from Sharpburg  
 to Carlisle, connecting with main  
 line at Carlisle. This road would  
 run through Moorefield.

### Remarriageable.

Mrs. Dearborn—And has he any  
 marriageable daughters?  
 Mrs. Wabash—Not just now, but  
 he expects to have two next week;  
 there seems to be no doubt about  
 their getting their divorces!—  
 Yonkers Statesman.

### True!

"If you go any deeper," said the  
 patient bald-headed man to the  
 mosquito, "I'll smash you."  
 "If you do," sang the tormenter  
 warningly, "your blood will be on  
 your head."—Smart Set.

At Richmond, Lewis J. Neale,  
 also bought of Thos. D.  
 Chenault his farm, lying along the  
 Lexington pike, containing 500  
 acres, for \$54,000 cash.

# CALIFORNIA

Do you want to live where the climate is mild the year round—  
 where labor is never oppressed by stress of weather, and where  
 animal vitality is never lost by mere conflict with cold?

Do you want to live in a region where the resources are more  
 varied than in any other equal area in the world, where the division  
 of great ranches affords a fine opportunity to get a small farm that  
 will assure you a competence?

Do you want to live where, with a minimum of labor, you can  
 grow profitable crops of grapes and small fruit, oranges, lemons,  
 olives, prunes and almonds, alfalfa and grain, where crops are sure,  
 business is good and capital easily finds profitable investment?

Then go to California, where both health and opportunity await  
 your coming.

### A New Treatment

For the pores of the skin which beau-  
 tifies the complexion.

Many people, especially ladies, are  
 annoyed with dry, scaly skin, black-  
 heads, pimples and blotches. Such al-  
 iments are generally treated with cold  
 cream, face lotions, witch hazel pre-  
 parations, etc., which only afford temporary  
 relief, if any. The trouble exists in the  
 inactivity of the pores of the skin. If  
 the pores are healthy and perform their  
 duties properly the complexion will be  
 good, unless the person is suffering from  
 some chronic blood trouble.

A Louisville chemist has succeeded in  
 perfecting a product known as Paracamp,  
 which, when applied to the face and  
 hands or any part of the body, opens the  
 pores, removes all unnatural obstructions  
 by stimulating the circulation and induc-  
 ing perspiration. Paracamp treats out  
 the trouble. It washes out the pores of  
 the skin, makes them healthy and active,  
 thereby giving a smooth, rosy, satin  
 finish to the skin. This new preparation  
 is being used very largely by complexion  
 specialists with the greatest success, and  
 is highly endorsed by all physicians,  
 owing to the fact that it is pure and  
 harmless. Paracamp can be purchased  
 at any first-class drug store, or if your  
 dealer does not keep it, order direct from  
 the factory. The price is within the  
 reach of all. Sold only in 25c, 50c and  
 \$1.00 bottles. Manufactured only by The  
 Paracamp Company, Louisville, Ky.

## FACTS and OBSERVATIONS MONEY and TIME

At and Returning from Parks Hill.

The Writer Attends an Auction  
Where Ladies are Animated  
Bidders.

On Wednesday the writer went to Parks Hill Chautauque to hear the oratorical contestants, one of whom was his nephew, Jno. W. Trimble, of this city. The train arrived before 9 o'clock. In the forenoon Rev. Sears delivered the lecture "Taffy and Epitaphy." At 2:30 o'clock the visitors were ready for the oratorical contest. The four colleges represented were Central University by R. C. Logan; Georgetown College by W. S. Cooke; Kentucky University by Jno. Davis; Kentucky Wesleyan by Jno. White Trimble.

The victor was Mr. Logan. His second was Mr. Trimble. The contest between these two was very close as one of the judges said. The judges were unanimous. Mr. Logan received \$50, Mr. Trimble \$25. The announcement of first winner was made last. This was a signal for a rush to the stage by his chums who carried him from the auditorium. During the contest there was more or less college yell, etc. after each speech, although the attendance of students was small. Ladies furnished much of the enthusiasm. We had not before heard our nephew. He is a gifted young man and fine speaker. We thought his chances for the championship were first class, but were satisfied with the decision of the judges. A few weeks ago we printed his oration delivered at Kentucky Wesleyan Commencement.

In the evening the entertainment consisted of pictures by D. W. Robertson, and dialect recitals by Mrs. Gregory, Horace Taylor, of Carlisle, is and for several years has been general manager.

There were on Tuesday 387 campers. The Chautauque was to close on Sunday night 13. The dining room accommodates 200 at a time. This is the second year since the discontinuance of the camp meeting. The attendance has been encouraging.

Among the acquaintances whom we met were Mesdames Mollie Chensault Deering, Mollie Knight Fant, J. M. Hopkins, Mary Dickey, F. F. King, — Grimes, — Eale, etc.

The reunion of Morgan's men will occur on 16-17 (Wednesday and Thursday).

After the evening entertainment we went to Winchester, spending the night at St. George's Hotel where we had very pleasant accommodations. We went to Paris next morning. Dick Galtkill and family of Mt. Sterling were enroute to visit the family of O. E. Lyons. Through the courtesy of the custodian of the new court house we were shown through this very attractive, up-to-date, first-class

building. The expenditures thus far (practically all) have been about \$170,000. We advise all our readers to see this if they have a chance. The Lexington court house cost more than two and one half times as much, yet an inexperienced observer will readily see Bourbon county got better returns for amount expended.

The prospects at Bourbon Female College for coming year are very encouraging. A social hour with Prof. Thomson was one of the pleasures of our trip. By telephone and person we chatted with our schoolmates Bob Tabbutt, W. O. Hinton and Earl Ashbrook.

We went to Lexington on the interurban. There are 63 stops on this run of 18 miles; the schedule time is 55 minutes. If you want to see attractive landscapes, including the Haggin home and farm of over 5,000 acres make this trip on the electric road.

At Lexington we learned that Mrs. Wm. Cassidy had been quite sick for several days. Passing along the street we saw many ladies attending the auction sale at J. A. Todd's dry goods store. We dropped in for recreation and to observe how women stimulate an auction. The writer was the only man (except employee) present.

Several open boxes of promiscuous articles were on an upper shelf. They were sold without being examined. The usual price was 5 to 15 cents. Wishing to share in the fun with the ladies we bid 20 cents and got the box. The auctioneer, Mr. Bain, said laughingly: "Young man, you have a wig." We answered: "I can wear it." There was no wig. He had mistaken a silk-lined, Persian Lamb, jet collar for

a wig. We can not from memory recall all the things in that box. We saw four dozen safety pins, 4 dozen buttons for children's garments, 2 cards of fine horn buttons suitable for my summer coat and vest, 2 large wooden crochet needles, a lady's linen collar, 2 pieces of lace, a hand-embroidered linen strip for lady's collar, a small bolt of silk belting, a card of cloth covered buttons, about 3 yards of silk and jet, lady's belting, etc., etc. Now ladies, do not get excited. If you go to Lexington before J. A. Todd's auction closes, drop in—and think of me, and as you come home on the train open your box (don't look at it in Lexington). Yes, those fine dress goods, etc. are bargains. Mrs. Trimble can tell you of her experience with the "wig" and how she thought that I was caught in buying that Persian Lamb, ante bellum (Spanish-American) collar. The laugh was on her when I explained that the whole outfit cost 20 cents.

Several crops of wheat in Fayette sold at from 50¢ to 80¢; one crop reported at 85¢ and one at 90.

For Sale.—Two fine farms; 144 acres good land at \$40 an acre; 345 acres in Logan county, finely improved and good, 10 miles from county seat, cheap, \$5,500. Other places cheap. I handle only bargains. W. H. BLAKELEY, Bowling Green, Ky.

The Government's estimated report give the yield of corn for this season at 2698 million bushels—the highest previous record was in 1899 at 2666 million bushels. The yield of wheat is estimated at 709 million bushels, an increase of 157 million bushels over 1904. On Saturday the wheat market in Chicago was weak from the beginning and prices sagged. Report of Russian wheat crop above the average depressed the market. Prices: August 50 1/2; September 51 1/2 to 51 3/4; Corn, September 53 1/2, old 53 1/2 to 54.

Cattle: Good to prime steers \$5.35 to \$6; poor to medium \$3.80 to \$5.00.

Hogs: Receipts 17,000, on Sunday 27,000; prices 10c higher; mixed and butchers \$5 to \$6.25; good to choice heavy \$6.10 to \$6.25.

### TOTALS.

Total offerings on the break at Louisville Saturday were 2,101 hogheads. 1,112 were new burley, 20 old burley, 567 new dark and 402 old dark. The burley offerings were fairly large, quality desirable, color more plentiful, condition good. For desirable bright grades, prices were firm, color grades were irregular. All red grades were easier, red trash and red lugs were fairly low. The burley crop is doing well, fully ten to fifteen per cent. is out and housed and under favorable conditions. The offerings of dark at auction were only 345 hogheads, quality exceedingly poor.

It is reasonable to suppose if the foundation to a structure gives way, the building is bound to come down. The principle can be applied to disease. MAURY MILITARY ACADEMY, MT. STERLING, KENTUCKY.

First session begins September 4, 1905, and continues ten months.

What is the most serious mistake in the home-training of boys? Unquestionably the policy of permitting children to do as they please—without any guidance and unprincipled discipline. Nothing renders a child more odious to others, especially to grown people, than early development of self-importance.

—Waste of the results of improper home-training are disobedience, impudence, self-importance, conceit, discourtesy, disrespect to seniors, ungoverned temper, bad language and bad morals.

The Military school, in great measure, corrects the mistakes of the parents, promotes discipline, good manners, good morals and respect for law—makes a student at least as good as the best and to do exactly as instructed—directs around him the safeguards of wholesome restraint—introduces him to military, promptness, precise aims, methods and system.

MAURY MILITARY ACADEMY does not pose as a great reformatory, but claims only to point its students to high, aims, noble aspirations, better lives.

The Course of study embraces Latin, Greek, French, German, English, Mathematics, Science, History, Literature, Book-keeping, Rhetoric, Grammar, Physical Culture, Primary and Military Tactics. Both sexes admitted. International. For further information or for catalog address

**MASTIC Mixed Paint "The Kind."**

To be certain of getting the right kind of paint, like the painter-man, you get the goods in the proper can. That's the only way to identify the paint before using it. After you once use Mastic paint the appearance of the work and the durability of the paint will convince you that the painter-man was right in his recommendation. You will need no further proof and you will recommend Mastic paint to your friends.

**Mt. Sterling Girl.**

It is always a pleasure to honor those who by hard work have made themselves worthy of honor. This is particularly true and gives unusual pleasure when the person has grown up in a certain community, then out into the world of culture and back again to the old home—returning with developed talents. Mt. Sterling has always been a city to praise her sons and daughters and this makes her children glad to return and to mingle once more with the scenes and friends of other days.

Our people are soon to have the opportunity of receiving in a public way one of the girls of our own number; she, since leaving our city has in a few years gained for herself an enviable reputation as a singer. Many hundreds of people have heard Miss Anna Belle Donohue and have been greatly delighted, and yet the greatest pleasure to many of our people will come from the fact that she is a Mt. Sterling girl, ready to sing before a Mt. Sterling audience, and we feel sure will bring new honors to herself and to the city of her childhood.
